

Sage Recognises Leverage Technologies Amongst the Top Worldwide Partners

Leverage Technologies invited to attend the 2017 Sage CEO Circle with senior Sage team members and high achieving Sage partners from across the globe

February 2018, Sydney, Australia

[Leverage Technologies](#) is pleased to announce that we have recently attended the Sage CEO Circle conference with senior Sage team members and high achieving Sage partners from across the globe. Sage invites the top 50 partners each year to attend a conference to discuss strategy, market trends and all things Sage.

The Sage X3 team at Leverage Technologies is now the largest Sage X3 consultancy team in Australia / New Zealand with 26 Sage X3 certified consultants available to implement and support Sage X3 for our growing customer base.

Over the past years Leverage has been awarded numerous Sage awards including - Highest Software Assurance Renewals, Highest Revenue Award and Net New Sales Excellence and Growth.

This latest accolade and entry into the Sage CEO circle is another great achievement for Leverage Technologies and our customers.

Brett Mundell, Managing Director at Leverage Technologies commented: "This award is a great win for all Leverage Technologies' customers. The Sage CEO Circle participation cements Leverage Technologies as one of the premier partners for Sage X3 in Australia and across the world. Our access to senior management and technical resources at Sage, in Australia and overseas, is a real positive for our customers. As always, the team at Leverage wants to provide the best possible resources, solutions and advice to help our customers grow their businesses. Being acknowledged as a premium partner for Sage helps us achieve these goals."

The Sage X3 team at Leverage Technologies continues to grow at a rapid pace with new team members joining the team every month.

About Leverage Technologies

Founded in 2005, Leverage Technologies specialises in helping customers achieve their goals for business management software implementation and business improvement by providing great resources backed up by three of the world's best software vendors – Sage, SAP and MYOB
