

LEVERAGE TECHNOLOGIES

Manufacturing Solutions Backed by World-Class ERP

INTRODUCTION TO LEVERAGE TECHNOLOGIES

Leverage Technologies is an award-winning Australian Enterprise Resource Planning provider that delivers innovative cloud ERP solutions for industries including manufacturing across multiple sectors (process, discrete, configure to order, engineer to order, project-based).

Leverage Technologies offers end-to-end services—from product selection and system implementation to training and ongoing support—enabling businesses to streamline operations, enhance decision-making, and drive growth. Leveraging expertise with platforms such as SAP S/4HANA Public Cloud, MYOB Acumatica, and Sage X3, Leverage Technologies maximises ROI and empowers companies to achieve long-term operational excellence.

“Their responsiveness, proactive problem-solving, and commitment to understanding our needs have been instrumental in optimising the system and driving operational efficiencies.”

Suzanne Le May, Group Financial Controller AU & NZ - BPW Transpec Pty Ltd

WHY MANUFACTURERS WORK WITH US?

Twice awarded SAP's Partner of the Year award

Awarded by SAP for excellence and customer experience

Twice awarded SAGE's Partner of the Year award

Awarded by MYOB for Excellence in business development

ERP SOLUTIONS THAT POWER MANUFACTURING

Purpose-built for manufacturers operating at scale, SAP S/4HANA Cloud Public Edition brings enterprise-grade capabilities to discrete, configure-to-order, engineer-to-order, and project-based environments. With deep automation, AI-driven insights, and industry best practices baked in, it's ideal for larger businesses looking to modernise complex operations and drive global growth.

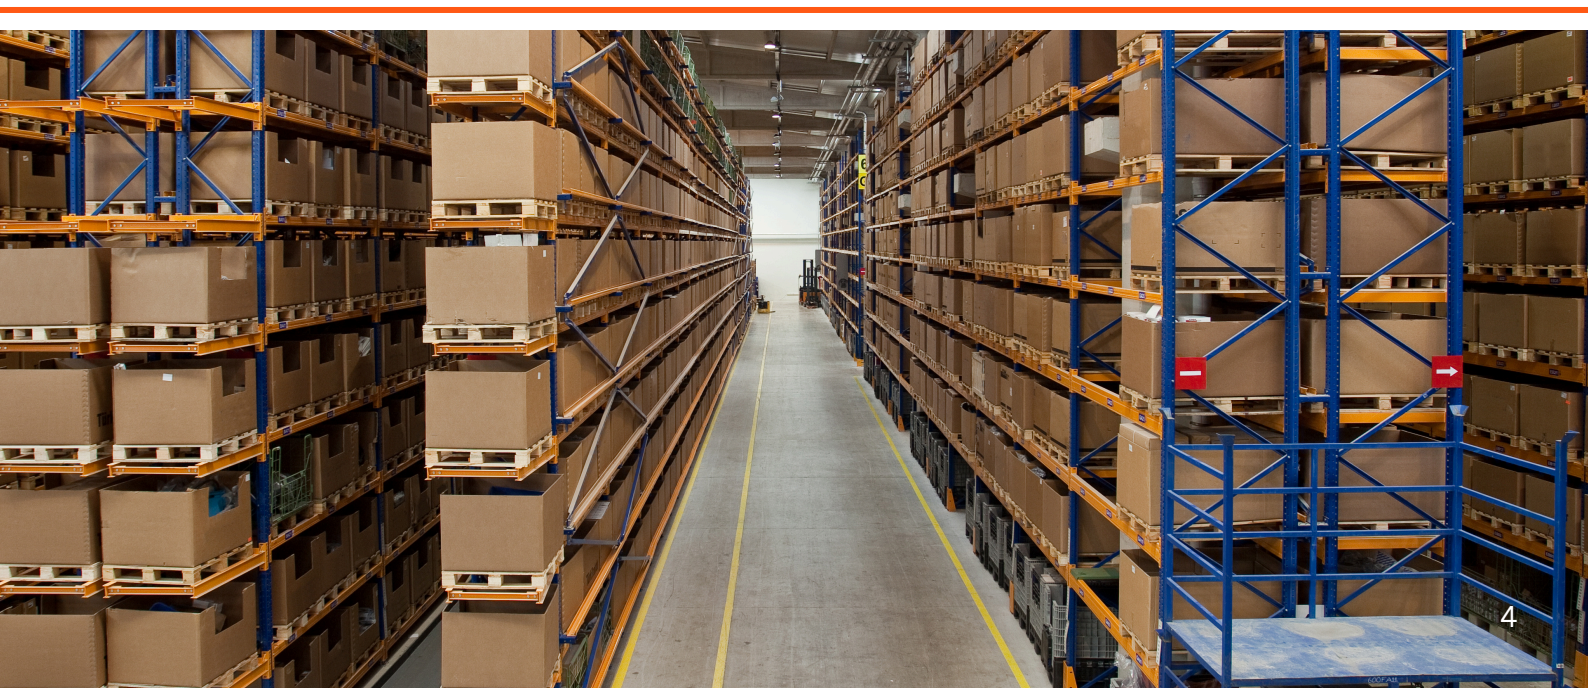

Designed for growing mid-market manufacturers, Sage X3 delivers flexible, end-to-end control over production, inventory, and project-based operations. With strong multi-site, multi-legislation, and multi-currency capabilities, it's a perfect fit for medium sized businesses in revenue looking to scale efficiently while maintaining agility and visibility across the value chain.

Cloud-native and intuitive, MYOB Acumatica offers powerful tools for discrete manufacturers needing flexible production workflows, real-time inventory accuracy, and strong financial integration. Suited to small and medium sized businesses, it's an ideal choice for local manufacturers looking to digitise without the overhead of a heavyweight ERP.

WHY CHOOSE LEVERAGE TECHNOLOGIES?

Leverage Technologies has been operating for 20+ years and has made a name for itself as one of the most reliable ERP providers in the southern hemisphere. With over 400 clients and 6,000+ users, we bring deep industry knowledge and local expertise to every project.

For expert advice about the right software to transform your business, along with implementation and support services, contact Leverage Technologies.
