

THE MEDICAL INDUSTRY IN AUSTRALIA (AND ACROSS THE WORLD)

IS HIGHLY REGULATED - STANDARDS LIKE TGA AND FDA
NEED TO BE ADHERED TO.

*The industry has a broad range of requirements
for ERP / Business Management Software based
on different industry sectors:*

Pharmaceutical

Medical Devices

Medical consumables

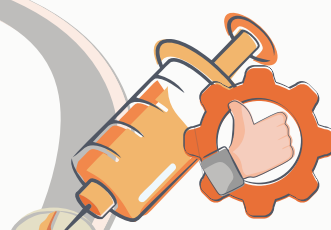

WITHOUT A GOOD ERP SOLUTION TGA AND FDA
COMPLIANCE WOULD BE ALMOST IMPOSSIBLE TO ACHIEVE.

*Choose an ERP solution that has native functionality for the
Medical and / or pharmaceutical industry. Some functional
requirements are unique to each sector within the medical
industry:*

Medical devices

- Serial number tracking
- Service and contract management
- Warranty tracking
- Loan stock tracking
- Kitting

Pharmaceutical

- Lot number traceability
- Quality control
- Process manufacturing

Biotech

- R&D tracking
- Expense management
- Lot traceability

Other requirements are generic across the industry:

Mobility

CRM

Strong inventory
control

Purchase planning

Approvals

Financials including
multi company

*What's important is a strong ERP application that offers this
functionality and a whole lot more. Proving you with the ability to
smoothly run your business, streamline TGA and FDA compliance
and provide opportunities for growth. The recommended ERP
solution should manage the entire process from sales to quote
to cash collection allowing you to focus on what's important
for your business.*
